Research Papers

The dynamic relationship between ground water and the Columbia River: using deuterium and oxygen-18 as tracers
K.A. McCarthy, W.D. McFarland, J.M. Wilkinson (Portland, OR, USA) and L.D. White (Menlo Park, CA, USA) 1
Laboratory and numerical investigations of immiscible multiphase flow in soil
J. Høst Madsen and K. Høgh Jensen (Lyngby, Denmark) 13
Testing the groundwater ridging hypothesis of streamflow generation during snowmelt in a forested catchment
J.M. Buttle and K. Sami (Peterborough, Ont., Canada) 53
Determining soil hydrologic properties from rain simulator or double ring infiltrometer experiments: a comparison
J. Touma and J. Albergel (Dakar, Senegal) 73
Blanket bog in Newfoundland. Part 1. The occurrence and accumulation of fog–water deposits
J.S. Price (Kingston, Ont., Canada) 87
Blanket bog in Newfoundland. Part 2. Hydrological processes
J.S. Price (Kingston, Ont., Canada) 103
Using fractal dimensions of stained flow patterns in a clay soil to predict bypass flow
R. Hatano (Sapporo, Japan) and H.W.G. Booltink (Wageningen, Netherlands) 121
A spatial, time-dependent approach to estimation of hydrologic data
B. Berkowitz, M. Ben-Zvi (Jerusalem, Israel) and J. Berkowitz (Vancouver, B.C., Canada) . 133
Evaluating Manning's roughness coefficients for tilled soils
Y.M. Mohamoud (Ibadan, Nigeria) 143
Hypersalinity: a dramatic change in the hydrology of Sahelian estuaries
H.H.G. Savenije (Delft, Netherlands) and J. Pagès (Montpellier, France) 157
Environmental tracer analysis of winter profile development in two basins of Shagawa Lake, Minnesota
R.E. Stauffer (Madison, WI, USA) 175
Evaluation of the depth-integration method of measuring water discharge in large rivers
J.A. Moody and B.M. Troutman (Denver, CO, USA) 201
Dissolved major elements exported by the Congo and the Ubangi rivers during the period 1987–1989
J.-L. Probst, R.-R. Nkounkou, G. Krempp (Strasbourg, France), J.-P. Bricquet (Brazzaville, Congo), J.-P. Thiébaux (Bangui, Central African Republic) and J.-C. Olivry (Bamako, Mali) 237
The use of hydrochemical sections to identify recharge areas and saline intrusions in alluvial aquifers, southeast Queensland, Australia
W. Dixon and B. Chiswell (Queensland, Australia) 259
Simultaneous parameter estimation and contaminant source characterization for coupled groundwater flow and contaminant transport modelling
B.J. Wagner (Menlo Park, CA, USA) 275
The effects of tree harvesting on stream-water quality at an acidic and acid-sensitive spruce forested area: Plynlimon, mid-Wales
C. Neal, C.J. Smith, S. Hill, M. Neal, T. Conway, G.P. Ryland, H.A. Jeffrey (Wallingford, UK) and R. Fisher (Lampeter, UK) 305
Hydraulique des unités d'interfluves et de bas-fond tourbeux: un exemple en zone de socle altéré (Madagascar)
J.C. Grillot et B. Dussarrat (Montpellier, France) 321

Non-linear modelling of the rainfall–runoff transformation
R.K. Kachroo (Galway, Ireland) and L. Natale (Pavia, Italy) 341
The Xinanjiang model applied in China
R.-J. Zhou (Nanjing, People's Republic of China) 371
Particle movement of melt water in subdrained agricultural basin
L. Bengtsson (Lund, Sweden), P. Seuna, A. Lepistö (Helsinki, Finland) and R.K. Saxena (Uppsala, Sweden) 383
